THE N.ASA, THE ÄSTHETIKER AND THE SHREDHEADZ PRESENT TOGETHER FOR THE FIRST TIME A HIGH CLASS SHRED EVENT: „SHRED DOWN AUSTRIAN MASTERS“

This winter the independent Austrian Snowboard Association n.asa, the famous snowboard crew Ästethiker and the Shredheadz co-operate and present together for the first time a unique and sensational snowboard event. Based on two legendary contests one extraordinary event was developed where the best Austrian snowboarders are going to fight it out for the crown.

Fun stands in the foreground but the main goal of the riders on two weekends will be to bring home the title of the Austrian master in the disciplines of halfpipe and slopestyle. The pipe competition will take place from 26 February to 1 April in Innsbruck/Nordpark and the slopestyle competition will take place from 5 April to 7 April in Westendorf.

On the occasion of the 10th anniversary of „Shred Down“ and the 5th anniversary of „Austrian Masters“, the final of the Austrian snowboard championships, these two contests will be united to one special event. Therefore many big names of the local and international snowboard scene including Sani Alibabic, Jocki Köffler and Wolle Nyvelt, just to name a few, will be present. They are going to show shredding at the highest level in the pipe on the See-grube and in a perfect shaped „Boarders Playground“ in Westendorf. The legends ranking is also going to be a special highlight. Past winners and additional famous faces such as Nando Plötzeneder, Paul Burger and Tom „Noodle“ Recheis are going to participate.

Apart from the title decisions additional side events for example the „Friday night jib session“ in Westendorf and the parties on both weekends are going to be offered again this year. They will round off the „Shred Down Austrian Masters“ 09.

More information on www.boardplay.com and the rider's registration on www.powdern.com.
